**Product Description**

EL-Lene H6007JU is a high density polyethylene resin with good processibility and UV resistance suitable for industrial product produced from injection molding process.

**Typical Application**
- Crate for beverage bottle
- Pallet
- Industrial parts for outdoor uses

**Product Characteristics**
- High UV resistance and good processibility
- Good stiffness and impact resistance
- Food contact applicable (Complies with U.S FDA 21 CFR 177.1520)

**Physical Properties**

Note: Conversion factor for changing unit from kg/cm² to MPa is divided by 10.20

**Processing Techniques**

The actual processing conditions depend on each machine type, product size, mold design and environment.

Recommended processing conditions:
- Melt temperature: 200-250°C
- Mold temperature: 20-60°C
- Injection speed: Fast
- Screw speed 40-70 rpm
- Pressure: Injection 30-70%, Packing and Holding 30-50%, Back 10% of Max. Pressure

**Product Technical Assistance**

For technical assistance or further information on this product or any other SCG Chemicals’ products contact your SCG Chemicals technical service at the address or telephone number as specified below.

**Product Available Form**
- Pellet

**Product Packaging**
- 25 kg loose bag
- Big Bag with specified weight

Storage
- Store in original container in tidy according to the manual of Handling and Storage from Thai Polyethylene Company Limited.
- Product(s) should be stored in dry and dust free location at temperature below 50°C and protected from direct sunlight and/or heat, well-ventilated area, away from incompatible materials and food and drink, as this may lead to quality deterioration, which results in odour generation and colour changes and can have negative effects on the physical properties of this product.
- Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.
- The storage area should be stable and not be slopped.

Safety
- The product is not classified as a hazardous material.
- Please see our Material Safety Data Sheet for details on various aspects of safety, recovery, and disposal of the products; for more information, contact your SCG Plastics/SCG Performance Chemicals technical service.

Recycling
- The product is suitable for recycling using modern methods of shredding and cleaning. In-house production waste should be kept clean to facilitate direct recycling.
- Please see our Material Safety Data Sheet for details on various aspects of safety, recovery and disposal of the products; for more information, contact your SCG Plastics/SCG Performance Chemicals technical service.

Related Documents
- The latest version of this document will be available at our website, www.chemicals.scg.co.th, or can be obtained from the SCG Plastics/SCG Performance Chemicals technical service.
- The following related documents are available on request, and represent various aspects on the usability, safety, recovery and disposal of the product.
  - Material Safety Data Sheet
  - Statement on compliance to food contact regulations

Disclaimer
- The product can be used only for the application as specified hereabove.
